REMARKS

Applicant has carefully considered the Examiner's Office Action and acknowledges with thanks that the Examiner considers claims 2,3,5,8,9,11-14, and 16-21 contain allowable subject matter.

In view thereof, applicant has amended the claims to place the application in condition for allowance.

Thus, claims 2 and 3 have been rewritten in independent form as claims 22 and 23, respectively. The remaining dependent claims have been amended to depend on these two independent claims 22 and 23, whereby claims 24-41 correspond to claims 4-21 in the Preliminary Amendment filed September 14, 2005. In amending the claims, furthermore, applicant has provided for proper antecedent basis and grammatical correctness.

Applicant has also amended the specification to provide the required section headings as well as the correction noted by the Examiner.

In view of the amendments that have been carried out to the claims and the specification, it is believed that the application is in condition for allowance.

Should the Examiner require or consider it advisable that the claims and/or specification be further amended to place the application in condition for final allowance, then it is respectfully requested that such amendments be carried

out by Examiner's Amendment and the case be passed to issue.

Respectfully submitted,

Max Fogiel
